

GUARANTEED ANALYSIS

99.5% Propoxylated Polyethylene Glycols
0.5% Water

GENERAL INFORMATION

Aquatrols® Sixteen90 is a safe, economical, and proven alternative for turf managers interested in a longer-lasting surfactant. Aquatrols Sixteen90 is proven to remain effective in the soil for up to three months, reducing water repellency (the cause of localized dry spots) and promoting turf uniformity. Unlike some “longer-term” surfactants, Aquatrols Sixteen90 is guaranteed to be safe on all highly maintained fine turf regardless of turf type, environmental or climatic stress conditions.

As with all Aquatrols products, Sixteen90 is backed by extensive research, field performance and quality control.

BENEFITS

- Provides more consistent management of water repellency problems than other long-term surfactants
- Performance will not “break” under climatic stress or drought conditions
- Safe for use on all turf types
- Backed by a money-back performance guarantee

APPLICATION OPPORTUNITIES

Sixteen90 is recommended for use on all highly maintained turf areas where safe longer-term control of water repellency and water movement issues is desired.

SEE LABEL FOR ADDITIONAL USES AND RATE FLEXIBILITY

All ingredients are exempt from the requirements of a tolerance as specified in 40 CFR 180.1001.

GENERAL INFORMATION

Aquatrols Sixteen 90 is an economical surfactant, which is a safe, proven alternative for those interested in a longer-lasting surfactant. Aquatrols Sixteen 90 is proven to remain effective in the soil for up to three months reducing water repellency (the cause of localized dry spots) and promoting turf uniformity. Unlike some "longer-term" surfactants, Aquatrols Sixteen 90 is guaranteed to be safe on all highly maintained fine turf regardless of turf type, environmental or climatic stress conditions.

Aquatrols Sixteen 90 is easily applied with conventional spray equipment. It is best to make initial application early in the season before stress begins.

DIRECTIONS FOR USE

GENERAL TURF

Full Rate Application

Apply Aquatrols Sixteen 90 at 16 fl oz/1000 sq ft in 5 gallons of water. Apply a post-treatment syringe cycle to activate. For control beyond 3 months, a subsequent application of 8 fl oz/1000 sq ft in 2 gallons of water may be required for extended performance through the fall period.

Split Application

Apply Aquatrols Sixteen 90 at 8 fl oz/1000 sq ft in 2 gallons of water, followed 7-10 days later with a second application at 8 fl oz/1000 sq ft. Apply a post-treatment syringe cycle to activate. For control beyond 3 months, a subsequent application of 8 fl oz/1000 sq ft in 2 gallons of water may be required for extended performance through the fall period.

DO NOT combine Aquatrols Sixteen 90 in the spray tank with pesticides or fertilizers unless prior use has shown the combination physically compatible, effective, non-injurious under local conditions.

For more detailed use information, call 1-800-257-7797.

STORAGE AND DISPOSAL

- Keep container tightly closed. Store in original container only. Keep in a secure and locked storage area. Do not add water to the contents of this container.
- Triple rinse container, empty rinse water into spray or stock tank. Dispose of empty containers in accordance with federal, state, and local law.

FIRST AID MEASURES IN CASE OF CONTACT

- EYE CONTACT: Do not rub eyes. Immediately flush eyes with large amounts of water for 15 minutes lifting the lower and upper lids. Seek medical attention if necessary.
- SKIN CONTACT: Remove contaminated clothing and immediately wash affected area with large amounts of water for at least 5 minutes. If irritation or redness persists, seek medical attention as needed.
- IF SWALLOWED: If victim is conscious and able to swallow, quickly give milk or water to dilute. Do not give sodium bicarbonate, vinegar, or fruit juices. Seek medical attention if necessary. Induce vomiting only upon advice from a physician.
- INHALATION: Move individual to fresh air and check to assure adequate respiration. Seek medical attention if necessary.

Applicators and other handlers should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove protective clothing and equipment after handling. Wash the outside of gloves before removing. Wash thoroughly and change into clean clothing.
