@ 200 lbs per acre w/starter fertilizer 10-24-18**

October-November

Apply Par Ex 24-2-12 at four (4) bags per acre

The Ultimate in Personal Service and Product Knowledge

If the field is predominantly Turf Fescue, you could possibly eliminate the Pythium fungicide, Subdue G, and reduce your cost by \$654.00 per acre. If the field is primarily, **Bluegrass/Ryegrass, then add two more fungicide applications for dollar spot.** One in May and one in September. Use Bayleton or Anderson Golden Eagle Granular for these applications. .
