A FEW SUMMER STRESS TIPS

This wet Spring is one for the record books. Nothing will protect your roots any better than an application of Signature (Aliette) fungicide. Do one right away if you haven't already. It's now labeled for Anthracnose as well.

Dollar Spot is "coyote ugly." Tank mix in some SysTec, Banner, or Bayleton and don't get caught with this ugly critter on your turf.

Nothing will help drain a wet area better than Invigorate. Use one gallon per acre once a month. It's cheap. Only \$49.00 per gallon.

Nutri-Rational and Griggs Bros. Foliars combined with Emerald Isle's CPR or PanaSea Plus will greatly aid in survival from summer stress.

Finally, see one of us about one of our two new products. Monsanto's QuickPro Dry powered by RoundUp and Bayer's new product Revolver. Revolver takes all cool season grasses out of Zoysia and Bermuda.
